

Homecoming Dress Visual Guide - The NOs

Fingertip rule applies ALL the way around the dress

NO hint of your chest should be seen from the side

Slits - top of the slit should be VERY close to fingertip length, at or below

Any side fringe or similar should be very close to fingertip length, at or below

- Fingertip length is required - if you're tall, look harder for a dress that works for you. They exist!
- Larger chest? There really are dresses that cover, flatter & make you feel great!
- TEST your dress to be sure it'll stay put when you're dancing (especially strapless and cinched)

Cinch dresses ride up easily - make sure it stays in place and stays fingertip length

Cleavage should not be visible at top or sides from a plunging neckline

No plunging, deep-V neckline - no matter your chest size

No sheer midriff showing dress "bra"
